Manage all Enterprise Payments “On The Go”: The TIS Mobile Payments App

The TIS mobile payments application is designed to simplify the operations of treasury and finance professionals already using our desktop solution by enabling them to manage payments directly through their mobile phone, rather than being confined to a desktop or laptop device.

Today, our mobile application provides users with a simple yet secure suite of interfaces for reviewing, approving, or rejecting payments that are scheduled to be executed, and also provides granular drill-down capabilities so that users have access to the same sets of information on their phone as they otherwise would through the desktop browser. The application is compatible with both Apple and Android devices, employs an industry-leading suite of biometric and PIN security credentials, and enables users to easily manage their connected devices online. Learn more about the functionality offered through the application below!

PAYMENT APPROVAL

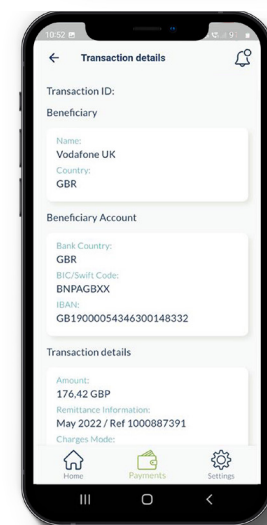

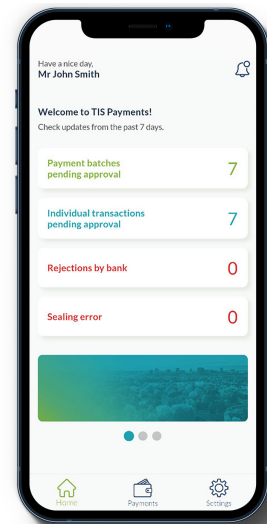

- ✓ Approve and reject payments with the app
- ✓ 100% SWIFT compliant workflows

PAYMENT DETAILS

- ✓ All details of your payments are provided in the app
- ✓ Drill down capabilities to review specific payment instructions

REAL-TIME PAYMENT INFORMATION

- ✓ Receive real-time information about new payments that need to be approved, payments rejected by the bank, and payments with errors.

PUSH NOTIFICATIONS

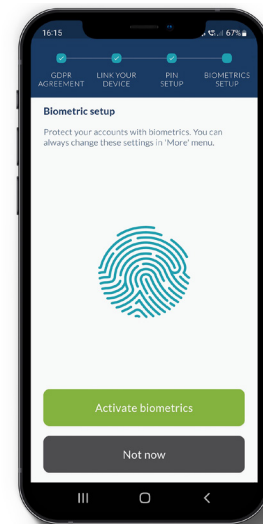

- ✓ Receive push notifications directly on your phone when there is a new payment pending approval or rejected by the bank.
- ✓ Stay updated about the app and TIS

SECURITY

- ✓ Secure, simple, and seamless activation process
- ✓ Access the app with your biometrics or PIN
- ✓ Manage your connected devices in the browser application

DOWNLOAD/AVAILABILITY

- ✓ Apple Store (iOS)
- ✓ Google Play Store (Android)

LEARN MORE ABOUT TIS

TIS helps organizations simplify and streamline their global payments and liquidity management operations. Our cloud-based platform empowers businesses to optimize critical functions surrounding cross-border and domestic payments, bank connectivity, cash forecasting, fraud prevention, payment compliance, and more. Corporations, institutions, and business vendors leverage TIS to transform how they connect with global banks and financial systems, collaborate on payment processes, execute outbound payments, analyze cash flow & compliance data, and promote working capital efficiency. Ultimately, the TIS technology platform helps businesses improve operational efficiency, lower risk, manage liquidity, gain strategic advantage – and ultimately achieve enterprise payment optimization.

Visit tispayments.com to reimagine your approach to payments and liquidity management.

Enterprise payments reimagined.
